## IPDSteel Welded Pistons for C15

IPD previously announced the availability of a new IPDSteel™ welded piston design (patent pending) for select C7 applications. IPD is now pleased to announce availability of this new piston design for select C15 applications, replacing the previous 1-piece steel versions (as specified by the OEM). Please see the New Products Announcement below for details.

Also, please note that IPDSteel welded pistons will soon be announced for select C18, C27, and C32 applications. Contact your Regional Manager for details and updates.

## New IPD Parts Announcements

IPD is pleased to announce availability of several new part numbers, including IPDStyle™ welded pistons for selected/applicable C15 applications:

### C15 (trucks & gensets)

- Kits for in-frame, out of frame, and cylinder head servicing (trucks)
- IPDStyle Crevice Seal Cylinder Liner option for all above kit configurations
- IPDStyle 1-2-3™ Gasket Sets for gensets

### C18 (gensets)

- IPDStyle 1-2-3 gasket sets for in-frame, out of frame, and cylinder head servicing (gensets)

### 3516 (gensets)

- IPDStyle gasket sets spark-ignited gas gensets

## IPDSteel Cylinder Liners for C18 & C32

### DID YOU KNOW...

IPD offers an aftermarket leading OE style IPDSteel cylinder liner (part number 3221126) made with SAE grade material and high tensile seamless steel tube construction for applicable very high cylinder pressure engine applications (such as C18 & C32). IPDSteel pistons and complete "PLG" Cylinder Kits will soon be available for these applications.
