

IPD Products for Cummins K Series ... 19L / 38L / 50L

The Standard for Quality, Innovation, Service and Support Since 1955

HEAVY-DUTY PARTS

IPD Value and Performance...Real COST PER HOUR Savings

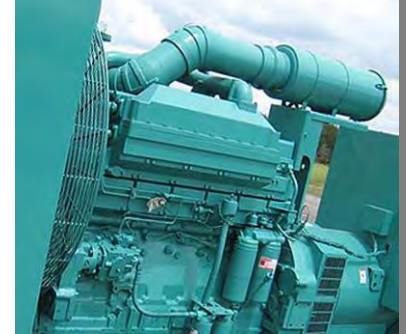

Cummins K Series engines (19L/38L/50L) have been powering heavy-duty equipment for several decades over a wide range of industries (mining, construction, power generation, rail, drilling, marine, and more). IPD's heavy-duty engine repair parts provide reliable performance that is backed by one of the most experienced aftermarket parts manufacturers in the world.

- IPD is the **leading aftermarket supplier** of high quality repair & replacement parts for heavy-duty engines
- IPD parts are **engineered in the USA** with specifications based on original equipment (OE) parts
- **Wide range of repair parts** available for heavy-duty work engines (from comprehensive parts kits to small but critical gaskets and seals)
- **Over 60 years of leadership** in the aftermarket (technical, engineering, design, manufacturing, and quality)
- IPD is an **ISO9001-2008 quality process certified**
- **Worldwide customer service & distribution** network
- **Industry leading warranty** coverage

QUALITY CONTROL & ASSURANCE

Machinery and equipment owners worldwide rely on IPD engine parts to provide **cost effective OE-level reliability, quality, and durability**. IPD parts are ready to meet the demands of the harsh conditions that K Series engines typically endure. IPD's engineering, manufacturing, and quality processes ensure **precision parts that are cost effective, reliable and durable**. From **precision metrological processes to detailed parts specifications, expert engineering and manufacturing, detailed quality systems, premium packaging, and industry leading customer and technical support**...IPD parts are your key to success.

IPD PRODUCT AVAILABILITY

IPD provides a wide range of quality/precision-engineered repair parts for K Series engines, as follows:

- **Piston Kits** (Piston, Pin, Retainers)
 - Industry leading / OE style anodized piston coating
 - Ni-Resist rings (on 2 grooves) for added durability and resistance to corrosion
- **Cylinder Liner Kits** (parts available for 3 engine block types)
 - Precision honed to minimize ring wear and oil consumption
- **Cylinder Head Components / Valvetrain**
 - Valve Kits, Guides, Rotators, Seats, Springs
 - Parts available for 6 cylinder head types
 - Cobalt based alloy valve seat facing material for high resistance to high temperature, wear, galling and corrosion
 - Nickel based austenitic matrix valve seat with molybdenum and chrome content for hardness and strength
 - Special Cr-Si alloy steel valve spring wire for high tensile strength and fatigue resistance
- **Engine Bearings** (Camshaft, Connecting Rod, Main, Thrust)
 - Copper alloy lining made specifically for high loads and high fatigue strength and cavitation erosion resistance
 - High quality conformable overlay material for added fatigue and corrosion resistance
- **Lubrication System** (Oil Cooler, Oil Pump, Piston Cooling Nozzle)
- **Fuel System** (Fuel Injectors)
- **Gasket Sets** (Single, Upper, Lower)
 - From woven steel core to high temperature materials, to cold rolled/carbon steel and Teflon® hydrodynamic crankshaft oil seals...IPD's configuration experts determine the best materials to use for each installation
- **Miscellaneous**
 - Cam Followers, Gaskets and Seals

Please consult with IPD's Quick Reference Guide (available on-line and in print) for specific part number details. Authorized distributors can access IPD's on-line catalog via the **IPDNet**.
