

IPD PARTS FOR THE CONSTRUCTION INDUSTRY

Machinery and construction equipment owners worldwide have learned that IPD engine parts provide cost effective reliability, quality and durability... and can help minimize downtime and improve operations efficiency.

- IPD is the leading aftermarket supplier of quality repair and replacement parts for construction machinery engines
- From haul trucks and construction equipment, to mills and mining machinery, IPD-powered heavy-duty engines have proven durable and reliable over extended service hours of operation
- Wide range of repair parts for heavy-duty work engine
- Industry leading warranty protection of 1 Year / 3,600 hours of operation for off-highway diesel applications

IPD HAS THE PARTS YOU NEED TO REBUILD 3500S.

IPD is excited to offer a suite of products geared specifically for the 3500 series:

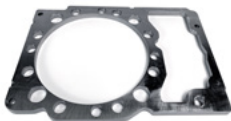

- **Cuffed Liner and Piston Group** - Our latest release for the 3500 is the addition of PLG4815615 cuffed piston and liner group. This new anti-polishing ring/liner provides increased durability and reliability while reducing carbon packing and liner wear. For use in select off-highway applications such as 776D, 777D, 784C, 785B, 789C, 793C, 992G, 994 and Gen Sets.

- **Water pumps** - If you are frustrated with substandard water pumps that have leaked and otherwise failed, then check out IPD's new water pump 4160610 (previous number #2128177). Every water pump is inspected by IPD's quality assurance team - they even come with a signed tag so that you know it's been tested for leakage, pressure and flow. Also, IPD's new innovative and revolutionary packaging ensures these new pumps arrive in perfect condition!

- **Cryo bolts** - IPD now has cryogenic head bolt kits available for the 3500 engine applications, 1310420-8FR. These bolts do not require any extra torquing and stretching does NOT occur! Every bolt comes packaged in its own netting to prevent abrasions and each cryo-treated head bolt has a blue dot on its head so that you know it's been cryo-treated.

- **Gasket sets** - IPD has the 3628264 MLS head gasket for the 3500 that goes with the G3500 including 900+ OE and IPD-style gasket kits.
- Aluminum and 1-piece steel pistons, cylinder kits, engine bearings, valve train and other components available for the 3500 series.
